BUSINESS BENEFITS

Streamline accounting functions

EHL Financial Information System helps group practices and MSOs streamline patient flow at every step in the patient care process – appointment, check-in/registration, clinical encounter, check out, billing, and reporting.

Seamless, easy-to-use functionality

EHL Financial Information System offers an integrated billing and receivables management tool with comprehensive analysis and reporting capabilities.

Powerful collection tool

EHL collections functionality enables users to implement an automated in-house collection effort, improving receivables and reducing the need for outside collection agencies.

Flexible standard reports, and unlimited custom reporting

EHL offers reporting capabilities that transform complex data into meaningful information for decision-makers. Integration with other EHL applications ensures that reports are based on complete and timely data so informed decisions can be made with confidence.

Financial management solution

EHL offers financial management solutions that are designed for today's rapidly changing environment, where improving business performance is critical for future success.

Billing and Accounts Receivable (BAR)

1. Highly flexible system that enables physician offices, group practices and clinics to manage financial data, maximize revenue collection and generate comprehensive reports for performance analysis
2. Complete back office functionality plus front desk capabilities enhance patient services and facilitate collection of co-pays, outstanding balances and current charges
3. Comprehensive standard reports and ad-hoc capabilities allow organizations to effectively analyze and manage their collection and accounts receivable at the physician location
